WORK EXPERIENCE

FRONTEND DEVELOPER @ JUSTIA [2015-2017]

Mockup responsive web design based in best web techniques

Identify usability and develop functional and smooth, easy-to-operate and eye-catching web applications

Work on open source, internal, and client projects focusing on CSS, responsive web, accessibility, and performance.

I help client build out their designs while thinking about accessibility, responsiveness, and modular reusable CSS (Sass).

Work with the team to make various client projects and products, building out CSS (Sass), HTML (Owm template), and light JavaScript.

FREELANCE @ [2014-2015]

Work with various clients to do front end development on their projects, including HTML(5), CSS(3), light JavaScript, and custom Wordpress themes.

Clients include:

[AMSDE](<http://www.amsde.mx/>)

[MyA Diagnósticos](<http://www.myadiagnosticos.com.mx/>)

[SOGEMEX](<http://www.sogemex.com.mx/>)

LEADING WEB APPLICATIONS @ FRACTALIA [2008-2014]

Project management, Brainstorming, planning, design, development websites, Socialmedia strategies.

Developed and implemented effective solutions that are integrated to company's information technology standards.

Monitored technical aspects of the front-end delivery for several projects.

Worked closely with the design team and project managers and ensured projects are delivered in a timely manner.

Converted Photoshop layouts to web pages using HTML, CSS, and JavaScript, PHP and Wordpress

Ensured projects meet the industry standards.

Worked on project estimation that included team members, and the development hours required

Recommended technical solutions and architecture to clients.

Interpreted and executed designs correctly as requested by clients.

Perform website maintenance and enhancements.

Write web pages using a combination of markup languages.

Create documents and specifications for functional requirements.

Develop prototypes and high quality mock-ups

Provide assistance to the back-end developers in troubleshooting and coding.

Create browser and platform compatible CSS (cascading style sheets) codes.

Maintain consistency in design and layout.

Perform browser testing and debugging.

Optimize website performance using latest technology.
