Skill Highlights

Team Player • Oriented detail • Complex problem solver • Innovative

Language

Spanish • English

OVERVIEW

Results-Driven Software Engineer with more than 14 years of expertise in developing high-performance, customer-centric applications across diverse industries such as Healthcare, Tourism, Real Estate, Non-profit, Government, and e-Commerce. Proven track record in web-based, multi-threaded applications and cutting-edge front-end development using the latest technologies. Specialized in WordPress development, proficient in:

Technical Skills and Expertise

PHP | Javascript | HTML5 | CSS3 | SASS | jQuery | Gutenberg | React JS | Bootstrap | Material UI | XDebug | SEO | A11Y | Google Search Console | Google Analytics | Cloudflare | Cloudways | WP Engine | WP VIP

Accomplished in utilizing Git, Jira, Scrum methodology, Cloudflare, and custom management services. Adept at conducting technical analysis and providing nearshore and offshore outsourced development services. Recognized for a strong background in technical standards, design, and development tools, with a deep understanding of shared software concepts.

Professional Experience

Engages effectively with users to define requirements, translating requests into precise programming specifications. Serves as a liaison between users and developers, independently creating environments, load structures, and information. Trusted technical advisor with a history of high-performance achievements and rapid adaptation to new tools. Process-oriented, ensuring top-notch coding quality with a self-taught, Object-Oriented Programming approach.

Key Strengths

Demonstrates outstanding work ethic and team-building skills, contributing collaboratively to a team environment while sharing knowledge and continually learning. Seeking opportunities as a Software Engineer, WordPress Developer, PHP Programmer, or Frontend Developer.

PROFESSIONAL EXPERIENCE

SENIOR WORDPRESS DEVELOPER @ TECLA (Contractor) [JUL 2024 - March 2025]

I specialize in developing high-performance, scalable WordPress solutions, leveraging my expertise in PHP, JavaScript, and **WordPress VIP**. My primary focus is crafting custom sections, pages, and features using both traditional and modern development approaches, ensuring optimal functionality and seamless user experiences.

With deep experience in **Advanced Custom Fields (ACF)**, I build dynamic, reusable **ACF Blocks** and **custom template parts**, enhancing the flexibility and maintainability of WordPress themes. I excel in writing **custom queries** and optimizing database interactions to improve site performance.

I have a strong background in **WP API** development, integrating third-party services and custom endpoints to extend WordPress functionality. Additionally, I have hands-on experience with **Lando** for local development, streamlining workflows and maintaining consistency across environments.

Beyond development, I actively collaborate with designers, product owners, and cross-functional teams to align technical solutions with business objectives. I also facilitate communication between QA and DevOps teams, ensuring smooth deployments and continuous integration in high-traffic environments.

My ability to integrate, customize, and optimize advanced plugins—including Elementor Pro and WooCommerce solutions—allows me to deliver tailored, high-impact WordPress experiences that drive engagement and performance.

SENIOR WORDPRESS DEVELOPER @ PARALLEL STAFF (Contractor) [OCT 2023 - JUN 2024]

As a Senior WordPress Developer, I have taken the lead in implementing tasks from **Figma** design, sections, and pages, utilizing **Elementor Pro** to create visually appealing and user-friendly interfaces. My expertise includes integrating and customizing Elementor templates to enhance website functionality and optimize customer relationship management workflows and **SEO**.

I specialize in **PHP** and **JavaScript** development, crafting custom queries, post types, and dynamic templates to deliver tailored WordPress solutions that align with project goals. My deep understanding of the **WP API** and **template parts** allows me to build modular, reusable, and efficient code structures, ensuring scalability and maintainability.

Collaboration is at the core of my work. I partner closely with designers, product owners, and cross-functional teams to ensure seamless alignment with project objectives and deliver high-quality results. My technical skills, combined with a strong focus on collaboration and problem-solving, enable me to consistently deliver exceptional outcomes in web development projects.

SENIOR WORDPRESS DEVELOPER @ CRATEBIND (Contractor) [JUL 2023 - SEP 2023]

My primary responsibility has been to spearhead the development of tasks, sections, and pages, leveraging the power of Elementor Pro to ensure a seamless and intuitive user experience. I have successfully integrated and customized advanced plugins such as Jet Engine and Sugar CRM to enhance website functionality and streamline customer relationship management. My proficiency extends to Mixpanel Analysis, where I employ data-driven insights to optimize user engagement and overall site performance.

Adept at creating custom queries and post types, I excel in tailoring WordPress solutions to meet unique project requirements. My collaborative approach involves working closely with designers, product owners, and cross-functional teams, ensuring alignment with project objectives and delivering exceptional results.

In addition to my technical prowess, I foster effective communication and collaboration between QA and DevOps teams, facilitating a smooth development lifecycle.

SENIOR WORDPRESS DEVELOPER @ ENCORA [DEC 2020 - JAN 2023]

I played a critical role in debugging, maintaining, and improving internal projects. I was responsible for staying abreast of new trends in web development and utilizing my expertise to provide solutions to complex issues based on PHP, WordPress, and JavaScript.

In addition, I successfully maintained WordPress sites, including updating plugins, implementing responsive design, and optimizing SEO tags and Analytics. I also leveraged my skills to mockup responsive web designs based on web standards, accessibility, and search engine optimization.

I demonstrated proficiency in debugging code in browsers and conducted response and cross-browsing testing. Furthermore, I was well-versed in version control using Git and deployed updates in Develop, Stage, and QA environments.

SENIOR WORDPRESS DEVELOPER @ ITCRAFTSHIP [FEB 2021 - OCT 2022]

- Debugging, maintenance and improvements for internal projects, research for new trends in web development.
- Maintenance of WordPress sites, updates plugins, responsive design, SEO tags and Analytics.
- Mockup responsive web design based on web standards, accessibility and search engine optimization.
- Solution of issues based on PHP, WordPress and JavaScript.
- Debugging code in browsers. Response and cross browsing testing.
- Version control in Git.
- Deploy updates in Develop, Stage, QA and Production environments

SENIOR WORDPRESS DEVELOPER @ KSQUARE GROUP [APR 2018 - NOV 2020]

Debugging, maintenance and improvements for internal projects, research for new trends in web development.

- Mockup responsive web design based on web standards, accessibility and SEO.
- Solution of issues based on PHP, WordPress and JavaScript.
- Debugging code in browsers. Response and cross browsing testing.
- Coding documentation.
- Version control in Git.

SENIOR WORDPRESS DEVELOPER @ BOY SCOUTS OF AMERICA [APR 2018 – APR 2020]

Development (from scratch) and sustenance of WordPress themes and plugins following BSA guidelines on design and development, color schema, design patterns, etc.

Help desk support to solve any issue from the client side related to performance, maintenance and info management.

- Solution of issues based on PHP, WordPress and jQuery.
- Mockup responsive web design based on web standards, accessibility and SEO.
- Debugging code in browsers and XDEBUG.
- Response and cross browsing testing.
- Coding documentation.
- Version control in Git.
- Kanban board tracking in JIRA.
- Scrum methodology to develop each task.

SENIOR SOFTWARE SPECIALIST @ HCL TECHNOLOGIES [FEB 2017- OCT 2017]

Assigned to develop components based on React js for USAA and solve issues about performance.

- Mockup responsive web design based on web standards.
- Solution of tasks based on JavaScript (React).
- Debugging code in browsers. Code testing with Mocha.
- Code documentation with Markdown. Version control in Gitlab.
- Follow-up meetings based on the Agile methodology.

FRONTEND DEVELOPER @ JUSTIA [2015-2017]

Website development, maintenance and debugging.

- Mockup responsive web design based in best web techniques
- Identify usability and develop functional and smooth, easy-to-operate and eye-catching web applications.
- Work on open source, internal, and client projects focusing on CSS, responsive web, accessibility, and performance.
- I helped clients build out their designs while thinking about accessibility, responsiveness, and modular reusable CSS (Sass).
- Work with the team to make various client projects and products, building out CSS (Sass), HTML (Own template), and vanilla JavaScript.

LEADING WEB APPLICATIONS @ FRACTALIA [2008-2014]

Head lead of Web application area, managing a team of designers and developers to rise up web projects for different kinds of clients related to government, non-profit, health, real estate business areas.

- Project management, Brainstorming, planning, design, development websites, Social media strategies. Developed and implemented effective solutions that are integrated to company's information technology standards.
- Monitored technical aspects of the front-end delivery for several projects. • Worked closely with the design team and project managers and ensured projects are delivered in a timely manner.
- Converted Photoshop layouts to web pages using HTML, CSS, and JavaScript, PHP and WordPress Ensured projects meet the industry standards.
- Worked on project estimation that included team members, and the development hours required Recommended technical solutions and architecture to clients.
- Interpreted and executed designs correctly as requested by clients. Perform website maintenance and enhancements.
- Write web pages using a combination of markup languages.
- Create documents and specifications for functional requirements. Develop prototypes and high-quality mock-ups.
- Provide assistance to the back-end developers in troubleshooting and coding. Create browser and platform compatible CSS (cascading style sheets) codes. Maintain consistency in design and layout.
- Perform browser testing and debugging.
- Optimize website performance using the latest technology.

TECHNICAL

- Basic creative design skills in Layout and Graphics using:

- Adobe Photoshop
- Zeplin
- Figma
- Illustrator.
- Website and apps mockups, mind maps.

- Web Skills:

- CSS3, SASS
- HTML5
- PHP
- WordPress
- SEO, SEM, web standards and accessibility
- Cross-browser compatibility
- JavaScript, jQuery,
- Mobile web designs
- Git (Github - Gitlab)
- NPM, Grunt, Gulp.

- Operating Systems: Windows, Linux, Macintosh.

OTHER SKILLS

- Project management. Brainstorming.
- Planning, design and development websites.
- Knowledge of Social Media strategies
- Some experience teaching. Good interpersonal skills.
- Strong communication and research skills.

QUALIFICATIONS

- Online Marketing Fundamentals by Google. 2017
- Redes Sociales para Negocios Seminary. 2013
- SEO posicionamiento en Google seminary. 2013
- HTML5 course. 2011
- Multimedia development course. 2007

EDUCATION

BACHELOR, ADMINISTRATIVE COMPUTING, 2007

Universidad Juárez Autónoma de Tabasco, Villahermosa, Tabasco, MX
